CORPORATION.

REV. CYRUS HAMLIN, D. D., LL. D., President.
REV. JOSEPH D. WICKHAM, D. D., Manchester.
REV. AMOS B. LAMBERT, D. D., Rupert.
HON. C. T. HULBURD, LL. D., Brasher Falls, N. Y.
JOSHUA BATES, Esq., LL. D., Boston, Mass.
CHARLES J. STARR, Esq., New York City.
PROF. WILLIAM H. PARKER, A. M., Middlebury.
THADDEUS FAIRBANKS, Esq., A. M., St. Johnsbury.
HON. JOHN W. STEWART, LL. D., Middlebury.
REV. GEORGE P. TYLER, D. D., Lansingburg, N. Y.
HON. JOHN B. PAGE, Rutland.
REV. GEORGE N. BOARDMAN, D. D., Chicago, Ill.
HON. WALTER C. DUNTON, A. M., Rutland.
STEPHEN A. WALKER, Esq., LL. D., New York City.
BAXTER E. PERRY, Esq., Boston, Mass.
HON. WILLIAM H. WALKER, A. M., Ludlow.
RUFUS WAINRIGHT, Esq., A. M., Middlebury.
GEORGE W. WARE, Jr., A. M., Boston, Mass.
REV. JAMES G. JOHNSON, D. D., Rutland.
HON. L. D. ELDREDGE, A. M., Middlebury.
HON. JOSEPH BATTELL, A. M., Middlebury.

PROF. WM. H. PARKER, A. M., Treasurer.
JAMES M. SLADE, A. M., Secretary.
MIDDLEBURY COLLEGE.

FACULTY.

Rev. Cyrus Hamlin, D. D., LL. D., President,
And Professor of Ethics and Political Science.

William Henry Parker, A. M.,
Baldwin Professor Emeritus of Mathematics.

Rev. Lewis Augustine Austin, A. M.,
Professor of Latin.

Henry Martyn Seely, A. M., M. D.,
Burr Professor of Chemistry and Natural History.

Ezra Brainerd, A. M.,
Professor of Physics and Applied Mathematics.

Professor of Rhetoric and English Literature.

William Wells Eaton, A. M.,
Professor of Greek.

Rev. Frank Hugh Foster, Dr. Phil.,
Professor of Philosophy and of German.

Brainerd Kellogg, A. M.,
Instructor in Elocution.

Professor Austin,
Librarian.

Janitor, - - - - S. R. Bolton
STUDENTS.

SENIOR CLASS.

Robert Jacob Barton, Robert Johnson, 15 S. H.*
Benjamin Franklin Churchill, Middlebury, Tupper's Block.
Elmer Eugene Cowles, New Haven, Mrs. Batchelder’s.
Frank Breed Hyde, Middlebury, Mr. Hyde’s.
Glenn Edward Lathrop, Brandon, 25 S. H.
Elmer P. Miller, Saranac Lake, N. Y., 27 S. H.
Clarence Rodney Piper, Ludlow, 29 S. H.
James Ten Broeke, Panton, 14 S. H.

SENIORS, 8.

JUNIOR CLASS.

Charles Billings, Ripton.
Edward Gibson Jenks, Poultney, 10 S. H.
James A. Jones, Middlebury, Mrs. Himes’s.
George P. MacGowan, Louisville, Ky., 24 S. H.
Frederick T. McLeod, Liverpool, N. S., 10 S. H.
Wilbert N. Severance, Manchester, 16 S. H.
Michael Angelo Stapleton, Middlebury, Mr. Stapleton’s.
Julius Valorious Sturtevant, New Haven, 13 S. H.

JUNIORS, 8.

*Abbreviation for Starr Hall.

MIDDLEBURY COLLEGE.

TERMS OF ADMISSION.

For admission to the Freshman Class, candidates are examined in the following studies:

Latin Grammar, including Prosody; Caesar, four books of the Gallic War; Cicero, six orations; Virgil, six books of the Æneid; Allen's Latin Composition, thirty lessons; History of Rome, Creighton's Primer.

Greek Grammar; Xenophon's Anabasis, three books; Homer's Iliad, two books, Jones's Greek Composition, twenty lessons; History of Greece, Fyffe.

Ancient and Modern Geography.

Arithmetic, including the Metric System; Algebra, through Quadratic Equations; Wentworth's Geometry, four books.

Real equivalents will be accepted in place of any of the authors named above.

A thorough familiarity with the elements of the Latin and the Greek Grammars is an indispensable requirement for admission.

Students from such fitting schools as have a thorough Classical Course fully meeting the above requirements, will be admitted without examination, on the certificate of their respective principals that they have completed the course, and mastered all that is required for admission. Those received on certificate will be regarded as on probation during the first term.

Students may be admitted to advanced standing, provided that in addition to the requisites for admission to the Freshman class they are found on examination thoroughly acquainted with all the studies that have been pursued by the class which they pur-
pose to join. Candidates for such standing should, however, be
informed that, in consequence of the thorough discipline of the
first College year and the exactness of knowledge that is required
of the student, no one can hope, if admitted, to maintain a
respectable standing, unless he comes with a high degree of pre-
vious preparation. Indeed, it is highly important to the unity
and completeness of a liberal education that the students enter
College at the commencement of the course. The disadvantages
incurred by those who postpone an entrance to a later period are
much more serious than is commonly supposed.

Every student admitted to an advanced standing (with the
exception of those who come from other colleges) is required to
pay a fee of $5.00, if he enters after the expiration of the Fall
Term of the Freshman year; and $10.00, if after the expiration
of the Fall Term of the Sophomore year.

Candidates for admission must bring certificates of good
moral character; and if from another college, of their regular
dismission and good standing. When a student has been exa-
mined and admitted to college, he is required to attend the pre-
scribed exercises, and is subject to the laws of the Institution.

Persons who desire to attend the recitations and lectures of
particular departments only may be permitted to do so, if they
are prepared to enter on the studies of such departments. They
will be required to pay the tuition and to become subject to such
laws of the College as may be designated by the Faculty.

By the recent action of the Trustees, the College offers the
same privileges to young ladies as to young gentlemen.
DEPARTMENTS OF INSTRUCTION.

ANCIENT LANGUAGES.

The instruction given in this department is intended to secure accurate scholarship in the principles of the Greek and Latin languages, and the ability to read Greek and Latin authors of average difficulty with considerable ease.

In addition to the reading of the authors designated in the course of study, together with careful drill on forms and syntax, and such study as may be given to History, Philosophy, Literature and Antiquities in connection with this reading, special attention is paid to the writing of Greek and Latin.

Written translations, translating English into Greek and Latin at sight, and reading these languages at sight, form an important part of the work. Through the study of etymology the student is taught to form vocabularies on correct principles.

These studies are also made to throw light on the meaning and use of English words and on the structure of English sentences, so as to give the student a better knowledge of his own language.

Lectures are given by the Professors in this department at such times and to such an extent as seems desirable.

MATHEMATICS.

The work of this department consists in a thorough training in Algebra and Geometry, extending through one year. Then follows the study of Trigonometry and the practical application of logarithms to various problems of Mensuration and Surveying. Especial prominence is given to field work, and the student is made familiar with the transit and compass. Analytic Geom-
Geometry is then taken up, followed by the Calculus. The latter study, however, is made optional.

RHETORIC AND ENGLISH LITERATURE.

There is a Rhetorical exercise in the chapel on Saturday mornings; at this the members of the two upper classes are required to deliver orations and the two lower classes declamations. Each student has a rehearsal previous to the exercise. There are also regular exercises in vocal development by the whole college. An exercise in English Composition, in which the members of the three lower classes take part, alternates with this. The study of English Literature is prosecuted with text-book and lectures.

MECHANICS, PHYSICS AND ASTRONOMY.

These allied studies are pursued through four terms, with an average of five exercises per week. Large additions to the physical apparatus have been made during the past two years, and additional expenditures are to be made. All the principles of physics are abundantly illustrated by experimental lectures. The text-books used are of an advanced grade and require of the student earnest work; but it is believed that this is justified by the increasing importance of this science in its manifold applications to practical life.

MODERN LANGUAGES.

The aim of this department will be to give the faithful student the ability easily to read such scientific works in French and German as he may need to use in his professional studies. On account of the greater difficulty and importance of the language, the greater amount of time will be given to German. Composition and conversation will be taught as necessary to the highest proficiency in reading.

To assist in these aims, a German society has been founded in the Junior Class, which will meet weekly throughout the year, led by the Professor. It will be devoted chiefly to conversation,
and the rapid reading of easy prose. It will be found of especial value to students who intend to pursue Theology or Medicine.

The German course has now been increased by the addition of two hours weekly in the Fall term of Junior year.

The work in the Philosophical Society may also be reckoned to the facilities offered in this department, as it will largely be in the German language.

CHEMISTRY AND NATURAL HISTORY.

CHEMISTRY.

The instruction in chemistry is designed to give the student an insight into the philosophy of the science, and at the same time to make him practically acquainted with the more frequently occurring chemical elements and compounds. In addition the student is expected to become so familiar with chemical manipulations by working at the laboratory tables that he can arrange apparatus and make experiments illustrating the principles discussed in the ordinary text-books.

The instruction consists of lectures before the Junior Class during the Fall and Winter terms; these lectures are reviewed by weekly examinations. Each member of the class is expected to spend five afternoons a week in laboratory work during the Fall term. Work in the laboratory during the Winter term is optional. Besides performing the experiments indicated in the text-book, the student is encouraged to enter upon some work of independent investigation. (Apparatus and material are furnished by the college; that broken or used is paid for by the student.)

BOTANY.

The student is expected to gain a good knowledge both of structural and systematical botany; to be so far advanced in systematical botany as to know the principal orders of plants at sight as well as to become familiar with the flora of the vicinity. Instruction is given by lectures, herbarium studies, laboratory
practice and field excursions. The students in the Sophomore class listen to lectures in structural botany during the Spring term. The following year while in the Junior Class they return to the study, review their previous work, make excursions for field practice and prepare an herbarium. The contents of the herbarium form the basis of their annual examination. The student presenting the best collection of plants gathered and arranged by himself receives a prize in recognition of his faithful work.

Zoology.

This study occupies the first part of the Senior year. Beginning in the Fall term, structural zoology is taught by recitations, lectures and dissections. Systematic zoology is pursued in the Winter term by the aid of specimens in the cabinet as well as by the use of text and reference books.

During the year past the cabinet has been enriched by the addition of many valuable specimens. These have been largely forms of marine life and birds of Vermont. The first were collected by the U. S. Fish Commission, and presented by the Smithsonian Institution; the second were collected from the vicinity of the college and presented by a member of the Senior class.

Geology.

This study is begun near the middle of the Winter term in the Senior year, and continued until the close of the year. Besides text and library reference books, a systematically arranged and constantly increasing cabinet gives the student excellent opportunity for pursuing this branch of study. The rocks of this vicinity are full of geological interest, and excursions among these afford the student a chance to apply practically what he has learned in the class room and cabinet.

Philosophy.

The regular instruction in this department aims at giving the student mastery of the outlines of a system of Psychology and
Metaphysics, and a general view of the history of philosophical speculation. Lectures are given in connection with the recitations. There are frequent written examinations.

For the purpose of gaining a better knowledge of the history of philosophy, a society has been founded in the Senior class having weekly sessions throughout the year, led by the Professor. It is proposed to read original works of the great philosophers, and the work at present studied is Descartes's *Meditations*. This society will be found of special value to those who intend to study Theology or Law.

The extra work required in this department for honors will consist in a dissertation which must show that the writer has thoroughly mastered his theme, and is capable of handling it with a certain degree of independence and originality. Subjects will be given in the Fall term to the members of the Senior class who may desire to become candidates. These subjects may be taken from the work done in the Philosophical Society. The dissertation, neatly written and stitched together, must be handed in as early as the first of June following.

The Boardman Philosophical Prize has, with the consent of the donor, been diverted to the purchase of books on Philosophy for the Library, the purpose for which the prize was established being now attained by the system of honors.

**ETHICS AND POLITICAL SCIENCE.**

In the department of Ethics Calderwood's Hand Book of Moral Science is used, with references to other authors differing from him.

In political science Woolsey's International Law, Fawcett's Political Economy and Guizot's History of Civilization, with examinations of other authors, lectures and discussions.
COURSE OF INSTRUCTION.

FRESHMAN CLASS.

FALL TERM.

Livy; Book XXII.
Allen's Latin Composition.
Xenophon's Memorabilia.
Jones's Greek Composition.
Wentworth’s Algebra.

WINTER TERM.

Cicero De Amicitia.
Latin Composition.
Selections from Herodotus.
Greek Composition.
Wentworth’s Geometry.
Kellogg's English Composition.

SPRING TERM.

Horace’s Odes and Epodes.
Homer’s Odyssey.
Geometry.
English Composition.

SOPHOMORE CLASS.

FALL TERM.

Horace’s Epistles and Satires.
Latin Composition.
Demosthenes’s Philippic III.
Boise’s Greek Composition.
Wentworth’s Trigonometry, Plane and Spherical.
MIDDLEBURY COLLEGE.

WINTER TERM.

Tacitus; Champlin’s Selections.
Sophocles’s Ajax.
French.
Brigg’s Analytic Geometry.

SPRING TERM.

Juvenal.
Plato.
Calculus, optional.
Dana’s Mechanics.
French, optional.
Botany; Lectures.

JUNIOR CLASS.

FALL TERM.

Physics; Atkinson’s Ganot, and Lectures.
Chemistry; Eliot and Storer’s; Lectures.
German; Otis’s Elementary German.
Jevon’s Logic.

WINTER TERM.

German; Reading.
Physics; Electricity and Heat.
Chemistry; Lectures.
Whately’s Rhetoric.

SPRING TERM.

German; History in German.
Astronomy; Newcomb and Holden’s.
Gray’s Botany; Lectures.
Physics; Lectures on Light.
Political Economy.
SENIOR CLASS.

FALL TERM.

Mental Science.
English Literature; Backus’s Edition of Shaw.
Orton’s Zoology; Lectures.
Fawcett’s Political Economy; Lectures.

WINTER TERM.

Guizot’s History of Civilization.
Butler’s Analogy; Lectures.
Calderwood’s Moral Science; Lectures.
Dana’s Geology.
History of Philosophy.

SPRING TERM.

Woolsey’s International Law.
Evidences of Christianity.
Geology.
Review of Studies.
in two weeks. On alternate Saturdays, a Composition Exercise in the Chapel, once in three lower classes.

Synopsis of Daily Recitations and Lectures.
GENERAL INFORMATION.

WORSHIP.

The exercises of each day begin with religious services, which all students are expected to attend.

They are required to attend public worship on Sunday, at such churches as are decided upon by the students or their parents, and made known to the President at the beginning of the year.

EXAMINATIONS.

At the close of the Fall Term there is a public examination of all the classes in the studies pursued during the Term. At the close of the Collegiate year the several classes are examined in the studies of the Winter and Spring Terms. The examination is protracted and severe, and is conducted in the presence of a committee of gentlemen appointed for the purpose, who report to the corporation respecting the proficiency and deportment of the students.

PUBLIC PERFORMANCES.

Commencement on the first Wednesday in July.

Exhibition of the Junior Class at the close of the Winter Term.

The Anniversary of the Associated Alumni on the Tuesday preceding Commencement; on the evening of the same day the Merrill and Parker Prize Speaking.

CABINET, LIBRARY AND READING ROOM.

The Cabinet, containing specimens in Geology, Mineralogy, Zoology and Botany, has been recently changed to larger apartments, remodeled, scientifically arranged and labeled with express reference to the text-books studied.
In the department of Chemistry, two Laboratories have been prepared and furnished, one for the use of students, and one for the Professor and his lecture room.

The College Library now contains over 15,000 volumes. By liberal gifts from the Alumni a large number of books has recently been purchased, selected carefully to meet the wants of the students in the various departments of study. The sum of $500 has lately been given by Hon. Mark Skinner of Chicago, Ill., of the class of 1833, and the same amount by Hon. James H. Phelps of Townshend, of the class of 1835, to be expended immediately in the purchase of books.

It is hoped that others of the Alumni and friends of the College will furnish funds for yet further increase of the Library.

The Library is open to the students every day. All books are accessible to them, and a complete catalogue of both authors and subjects directs them to the shelf where any book may be found.

The first floor of the Library is conveniently furnished as a consultation or reference room. The books of reference, magazines, catalogues and indexes are mostly here, making it an excellent place for literary work. The tables are also supplied with some of the more costly and valuable reviews and magazines.

A pleasant students' Reading Room and a Gymnasium have been fitted up and made attractive. It now remains for the friends of the College to furnish the means for continued healthy growth in all departments.

**RECORD OF MERIT.**

A class-book is kept by each instructor, in which the character of each student's recitation is noted by numbers. At the close of each Term the average of these marks is recorded, and, when desired, communicated to parents and guardians. Absences from College exercises are also recorded and made the basis of discipline.
COLLEGE HONORS.

On the "Record of Merit," including recitations, examinations and fidelity, the Faculty, under the direction of the Corporation, have arranged a scheme of honorary appointments for Junior Exhibition and Commencement. They have aimed to devise a plan that will secure the advantages of honorable emulation, and at the same time avoid many of the incidental evils of College distinctions.

SPECIAL HONORS.

To promote and encourage special investigation in the various departments of liberal study among the students, the College Faculty have determined to establish special honors to be awarded on Commencement day after the following plan:

1. These honors shall be divided into two classes, to be called "Honors" and "Highest Honors."

2. For the attainment of honors shall be required:
   (a) A general average of 75 per cent for "Honors," and of 90 per cent for "Highest Honors" in all the studies of the department in which honors are sought, and
   (b) The performance of a satisfactory piece of extra work previously assigned by the Professor, which must be of a superior quality for attainment of Highest Honors. Very superior quality in this work will offset a slight deficiency in rank.

3. The following arrangement of departments has been made:

4. These honors will be announced when the degrees are conferred at Commencement, be printed in the next annual catalogue, and will be certified to by a written certificate from the President and the Professor of the department, stating explicitly the rank attained, and the nature and quality of the extra work done.

At the last commencement the following honors were awarded:
Highest honors in Philosophy to G. M. Rowland.
Highest honors in Physics to Samuel Sheldon.
Honors in History and Political Science to Jesse Stearns.

PRIZES.

During the last year the College received from the estate of the late Rev. Thomas A. Merrill, D. D., the sum of fifteen hundred dollars, the interest of which is to be applied annually “for the encouragement and improvement of elocution.” From the income, prizes amounting to seventy dollars are to be awarded to members of the Sophomore Class. The award is based upon the general excellence of delivery, but pre-eminently upon “the ability to impress truth on other minds.” The first competition took place July 2, 1883.

The Parker Prizes are given to the two of the four competitors in the Freshman Class, who are judged the best speakers.

A Botanical Prize of $20.00 is awarded annually in the Junior Class.

Two Greek Prizes are awarded at the end of Freshman year.
1. Ten dollars to the best scholar in Greek. 2. Ten dollars to the one who has made the greatest improvement in Greek. The scholarship in each case will be determined by the recitations and examinations of the year.

BENEFICENT FUNDS.

The Waldo Fund, given by the late MRS. CATHARINE WALDO, of Boston, and the Baldwin Fund, received from the estate of the late JOHN C. BALDWIN, Esq., of Orange, N. J., furnish liberal aid in payment of term bills of students. The income of these funds is used:

1. In cancelling the term bills (except the charge for the reading room) of three students from each class, whose scholarship and deportment warrant such distinction.

2. In cancelling, wholly or in part, the term bills of such other students as are provided for by the terms of the legacies.

The income of the Warren Fund is applied in payment of the
term bills of those who are preparing for the Gospel Ministry. Such students can also receive aid from the American Education Society, usually to the amount of $75 annually.

The income of the Literary Fund, $44.60 a year, is awarded to one or more of the members of the College, whose scholarship and fidelity in the discharge of their duty may entitle them to such a distinction, and is credited on term bills.

PRIZES AWARDED DURING THE YEAR 1882-3.

WALDO AND BALDWIN PRIZES.

Class of 1883.—G. M. Rowland, S. Sheldon, C. M. Severance.
Class of 1884.—J. Ten Broeke, R. J. Barton, C. R. Piper.
Class of 1885.—M. A. Stapleton, W. N. Severance, E. G. Jenks.

MERRILL PRIZES.

Class of 1885.—First Prize, W. N. Severance; Second Prize, F. T. McLeod; Third Prize, M. A. Stapleton; Fourth Prize, J. V. Sturtevant.

PARKER PRIZES.

Class of 1886.—First Prize, W. M. Ross; Second Prize, J. E. Ellsworth.

BOTANICAL PRIZE.

First Prize, R. J. Barton; Second Prize, B. F. Churchill.

GREEK PRIZES.

Scholarship Prize.—W. M. Ross.
Improvement Prize.—A. W. Varney.

Note.—The Philosophical Prize (now discontinued) was announced by error in the last catalogue as awarded to C. B. Ross; it was, in fact, awarded to J. C. Miller, class of 1882.
SCHOLARSHIPS.

A Scholarship Fund has been secured, which may be made available to those whose circumstances require it. The control of these scholarships is in the hands of individual proprietors, but young men of good character and correct deportment can usually obtain assistance from this source. These scholarships pay tuition—$45.00.

In addition to these, the following Scholarships, recently provided by donations of $1,000 each, yield to the persons placed upon them by the donor, the sum of $60.00 a year to be credited upon the term bills:

It is to be understood that negligence or misconduct will forfeit beneficiary aid.

BOARDING HALL.

In our last Catalogue we gave notice of the intention of the College to establish a boarding hall that should be attractive to the students, economical, diminishing as much as possible college expenses, and socially so connected with the families of the faculty and of all the friends of the College that it should be a true home to the boarders. The hall has been finished, and it is accomplishing all that the College anticipated or hoped for. The college furnishes the building, furniture, fuel and lights, and pays the cook. The students do the rest. The students choose a committee, who, in connection with the President, have the
general management. The committee make the purchases, arrange the diet or daily bill of fare, and settle all the accounts. The cost is about two dollars a week, but with greater experience this will naturally be reduced. In forty-five days since the opening of the hall the boarders have gained variously from four pounds to twelve. They are indebted to Messrs. Fairbanks & Co., of St. Johnsbury, for the elegant scales upon which the weights will be determined every month. We believe some other colleges are intending to follow our example.

EXPENSES.

The following statement embraces the principal expenses for the year, except for clothing and text books:

<table>
<thead>
<tr>
<th>Item</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition, $15 per term</td>
<td>$45.00</td>
</tr>
<tr>
<td>Room rent (if two occupy a room)</td>
<td>11.25</td>
</tr>
<tr>
<td>Use of Library and care of rooms</td>
<td>10.00</td>
</tr>
<tr>
<td>Board for 38 weeks, at $2.00, in the Boarding Hall</td>
<td>76.00</td>
</tr>
<tr>
<td>Fuel, Lights and Washing</td>
<td>25.00</td>
</tr>
<tr>
<td>Reading Room, 75 cents per term</td>
<td>2.25</td>
</tr>
</tbody>
</table>

$169.50

Juniors and Seniors are charged each a fee of $1.00 a term to defray the expenses of the Laboratory and Cabinet. Damages, the author being unknown, are averaged upon all.

The principal railroads in Vermont carry students for half fare.

PAYMENT OF BILLS.

[Extract from College Laws.]

"The several sums charged in the Term bills shall be considered as due and payable as soon as the Bills are made up according to law. And in all cases when the Term bills are not paid within three months after they shall have become due, it shall be the duty of the Treasurer to report the same to the Faculty, and the duty of the Faculty to call the delinquents before them; and if no necessary reason for the delinquency be assigned, either to write their parents or guardians, or suspend them from the privileges of the Institution until the payment shall have been made."
DEGREE OF BACHELOR OF SCIENCE.

The degree of Bachelor of Science will, in future, be conferred upon those who choose to take the College course without Greek. Instead of Greek in the Freshman and Sophomore years, studies in English Literature and Physical Science will be substituted.

DEGREE OF MASTER OF ARTS.

On payment of the usual fee of four dollars, the degree of A. M. will be conferred on those graduates of three years' standing who have been engaged in literary pursuits. Application should be made to the President or Treasurer, as early as the day before Commencement.

NECROLOGY.

An Obituary Record is published from time to time. For this publication brief biographical notices of deceased graduates are desired. Any person who can furnish such notices will confer a favor by sending them to Professor Ezra Brainerd.

GENERAL CATALOGUE.

A General Catalogue of the College is now being prepared. Graduates and others possessing information which will help to make this catalogue complete and accurate are requested to send such information to Professor W. H. Parker.
MIDDLEBURY COLLEGE.

CALENDAR.

1883.
July 4th. Commencement—Wednesday.

SUMMER VACATION OF TEN WEEKS.

September 13th. Fall Term began—Thursday.
December 18th. Fall Term ends—Tuesday.

WINTER VACATION OF TWO WEEKS.

1884.
January 3d. Winter Term begins—Thursday.
March 25th. Winter Term ends—Tuesday.

SPRING VACATION OF TWO WEEKS.

April 10th. Spring Term begins—Thursday.
June 24th. Annual Examination begins—Tuesday.
June 29th. Baccalaureate Sermon and Anniversary of the Y. M. C. A.—Sunday.
July 1st. Anniversary of Associated Alumni—Tuesday.
July 2d. Commencement—Wednesday.
July 3d. Examination of Candidates for Admission—Thursday.

SUMMER VACATION OF TEN WEEKS.

September 11th. Fall Term begins—Thursday.
